

The University of Buckingham is the top university in the UK for graduate employment 100% within 6 months. Our student body has voted us top for student satisfaction four years running 2006, 2007, 2008 and 2009, so we can be proud to say that we are home to the happiest students studying in the UK! We are located in a safe campus surrounded by a quintessential English countryside and most importantly, we offer a truly international experience with 60% of overseas students representing more than 90 countries.

Our 2-year fast track honours degree includes the content of a traditional 3-year degree, taking advantage of the long period of holiday in a traditional school year to include an extra term of study. This means that rather than more work per week students simply study more weeks per year.

The University of Buckingham is an independent university. Since its foundation in 1976 we have pioneered the offer of 2-year bachelor's honours degrees. Our independence from public funding has allowed us to innovate in education and provide services to our students that focus on personal attention.

Buckingham is a unique institution where innovation in education is our commitment. Our independence allows us to adapt to the changing global environment and this is reflected in our study programmes. Our dynamism and independence allows us to keep "in-vogue" with our time and prepare students for the future.

We offer courses in Law, Humanities, Business and Science at undergraduate and postgraduate levels. Our undergraduate and postgraduate degrees are recognised internationally and are well regarded by professional bodies in the UK.
